EDUCATION

B.Tech - CSE: 2nd Year Undergrad
MIT-ADT University

08/2024 – Present
Pune, India

PROFESSIONAL EXPERIENCE

Junior Full-Stack Web Developer - Internship
Ando India Pvt. Ltd (EktaCreations)

12/2025 – 01/2026
Remote - Pune, India.

- Developed a gamified, multi-role task management web application built with Next.js, React, and Supabase tailored for Japanese clients. Spearheaded the application's internationalization (i18n), implementing seamless English and Japanese language localization. Designed secure dashboards for admins, managers, and end-users, integrating a points-based leaderboard system to drive user engagement.

PROJECTS

Quest Project

Task Delegation & Gamification System

Next.js, Supabase, React The core project developed during my Junior Full Stack internship; a localized task-management web application for Japanese clients featuring an automated point-distribution engine and secure manager dashboards.

Lumina

AI Knowledge SaaS

Developed Lumina, an AI-powered knowledge management SaaS using Next.js and Supabase, integrating OpenAI and Framer Motion animations.

Intellilearn by MIT-ADT

AI Chatbot & ERP System for a Smart Campus Initiative

- Developed IntelliLearn, an AI-driven Smart Campus platform using React and Tailwind CSS, integrating a chatbot and ERP for automated academic support.
